Revised July 13, 2006 Chemistry The Chemistry curriculum is designed to continue student investigations of

the physical sciences that began in grades K-8 and provide students the necessary skills to be proficient in chemistry.

Chemistry Curriculum - Georgia Standards

Welcome to the Department of Chemistry. Chemistry, the central science, is an integral part of modern life and forms the basis for advances in nearly all areas of science and technology. Students and faculty in Chemistry at the University of Maine work together to answer questions related to major societal issues: energy, the environment, modern materials, and health and medicine.

Nuclear chemistry is the subfield of chemistry dealing with radioactivity, nuclear processes, such as nuclear transmutation, and nuclear properties.. It is the chemistry of radioactive elements such as the actinides, radium and radon together with the chemistry associated with equipment (such as nuclear reactors) which are designed to perform nuclear processes.
