Evolution is change in the heritable characteristics of biological populations over successive generations. These characteristics are the expressions of genes that are passed on from parent to offspring during reproduction. Different characteristics tend to exist within any given population as a result of mutation, genetic recombination and other sources of genetic variation.

We are in the End Times “ the most glorious times in the history of earth and mankind. The End Times are the Times of Ascension when this planet and humanity will move to the 4th and 5th dimensions, which is the “Paradise” promised to humans by all religions.. Humans will be able to overcome physical death and transform their biological bodies to crystalline light bodies.
