Case Project 3 1 Solutions - tldr.io

Darkita Alexander CTI 120 0001SU Case Project 3-1 What changes in equipment are required to bring this company's network up to date to solve the shared-bandwidth problem? I would replace the hubs with switches to help build the rates at which information is exchanged inside the system. It'll be a faster process to communicate with all in employees that are utilizing the network.

Case Project 3-1: Interference on WLANs There are a bunch of unlicensed bands that are part of the radio spectrum; this is available to all users. A big drawback of this situation is that it because these bands do not need a license for operation, it can create interference between different devices that work closely to these bands, WLAN is one of them.

Case Project 3-1 - Case Project 3-1 Interference on WLANs

Chapter 1 Case Project 1-1 For Thrift Towne I would choose a peer-to-peer network because they only have four computers and it's the simplest form of a network. This type of network is simple to configure, so that would be an advantage for the volunteers that will be working there with minimum experience.
