Case 1: Case Preparation involves reviewing all relevant information about the client and the indication for genetic counseling prior to the session. In this case, the genetic counselor meets with Mary, a prenatal client with intellectual disabilities, and her mother. The case explores issues of autonomy, legal rights, and support for individuals with intellectual disabilities.

Hearing loss, also known as hearing impairment, is a partial or total inability to hear. A deaf person has little to no hearing. Hearing loss may occur in one or both ears. In children, hearing problems can affect the ability to learn spoken language and in adults it can create difficulties with social interaction and at work. In some people, particularly older people, hearing loss can result ...
