Nearly two thousand pots of Susa I style were recovered from the cemetery, most of them now in the Louvre. The vessels found are eloquent testimony to the artistic and technical achievements of their makers, and they hold clues about the organization of the society that commissioned them.

Susa - Wikipedia

Pottery is the process of forming vessels and other objects with clay and other ceramic materials, which are fired to give them a hard, durable form. Major types include earthenware, stoneware and porcelain. The place where such wares are made by a potter is also called a pottery (plural "potteries"). The definition of pottery, used by the American Society for Testing and Materials (ASTM), is ...
