Color Psychology (the "Colour Affects" system) Color psychology is a matter of debate, to say the least. There are very few (if any) undisputed scientific research presented, yet an increasing ... the object will absorb only the wavelengths that exactly match its own atomic structure and reflect the rest " which is what we see. Turn this ...

Color Psychology (the "Colour Affects" system)

color wheel is commonly accepted as a visual representation of color theory. This color wheel was invented by Johannes Itten, a Swiss color and art theorist. According to Itten, the primary use of his color wheel is for mixing pigments. However, many artists use this color wheel to create visually harmonious color combinations.
