Diagnosis is the identification of the nature and cause of a certain phenomenon. Diagnosis is used in many different disciplines with variations in the use of logic, analytics, and experience to determine "cause and effect".In systems engineering and computer science, it is typically used to determine the causes of symptoms, mitigations, and solutions.

Leukoplakia could be classified as mucosal disease, and also as a premalignant condition. Although the

white color in leukoplakia is a result of hyperkeratosis (or acanthosis), similarly appearing white lesions that are caused by reactive keratosis (smoker's keratosis or frictional keratoses e.g. morsicatio buccarum) are not considered to be leukoplakias.
