Science, Technology, Engineering and Mathematics (STEM), previously Science, Math, Engineering and Technology (SMET), is a term used to group together these academic disciplines. This term is typically used when addressing education policy and curriculum choices in schools to improve competitiveness in science and technology development. It has implications for workforce development, national ...

The Applied Mathematics and Optimization Journal covers a broad range of mathematical methods in particular those that bridge with optimization and have some connection with applications.

#### **Applied Mathematics & Optimization - incl. option to**

The Mathematics department prepares students with strong skills in mathematical communication, problem-solving, and mathematical reasoning. This solid foundation enables students to transfer to other institutions of higher education, pursue advanced studies in math or related disciplines, and be prepared with occupational and technical skills to meet the needs of business and industry.
