The term export in international trade means the sending of goods or services produced in one country to another country. The seller of such goods and services is referred to as an exporter; the foreign buyer is referred to as an importer.. Export of goods often requires involvement of customs authorities. An export's reverse counterpart is an import

Import substitution industrialization (ISI) is a trade and economic policy which advocates replacing foreign imports with domestic production. ISI is based on the premise that a country should attempt to reduce its foreign dependency through the local production of industrialized products. The term primarily refers to 20th-century development economics policies, although it has been advocated ...

You could execute the .sql file as a script in the SQL Developer worksheet. Either use the Run Script icon, or simply press F5.. For example, @pathscript.sql; Remember, you need to put @ as shown above.. But, if you have exported the database using database export utility of SQL Developer, then you should use the Import utility.
