Environmental psychology is an interdisciplinary field that focuses on the interplay between individuals and their surroundings. It examines the way in which the natural environment and our built environments shape us as individuals. The field defines the term environment broadly, encompassing natural environments, social settings, built environments, learning environments, and informational ...

Note: Penn Law allows students to take up to four pre-approved graduate level classes (12 credits) within the University. While Penn Law subsidizes the cost of the certificate with significant payments to partner schools for up to four outside courses, the certificate candidate is responsible for an administrative fee set annually with tuition.

### **Cross-disciplinary: Certificates of Study â€¢ Penn Law**

The origins and development of environmental psychology are summarized and a general definition of the field is offered. Its current vigorous state is held to be a product both of the way its practitioners have met the challenges of application and of the benefits accruing from the cumulative impact of several scientific research traditions.
