CHAPTER 1 Introduction to Proactive Classroom Management 5 THE PURPOSE OF EDUCATION How a teacher approaches classroom managementâ€™the priorities and techniques he or she usesâ€™depends on his or her goals. If the purpose of classroom management is to elicit compliance, the methods chosen will reflect this choice.

## **Introduction to Proactive Classroom Management**

This course introduces students to the theory, algorithms, and applications of optimization. The optimization methodologies include linear programming, network optimization, integer programming, and decision trees. Applications to logistics, manufacturing, transportation, marketing, project management, and finance. Includes a team project in which students select and solve a problem in practice.

Data science is an interdisciplinary field that uses scientific methods, processes, algorithms and systems to extract knowledge and insights from data in various forms, both structured and unstructured, similar to data mining.. Data science is a "concept to unify statistics, data analysis, machine learning and their related methods" in order to "understand and analyze actual phenomena" with data.
