ABSTRACTTwenty years after apartheid was formally abolished it continues to shape South African society. Its legacy persists over and above interest in it as a perverse phenomenon. We therefore find it timely, as part of our introduction to this special issue, to review some important studies of the economic aspects, and particularly some newer research by young scholars.

General relativity is a theory of gravitation that was developed by Albert Einstein between 1907 and 1915. According to general relativity, the observed gravitational effect between masses results from their warping of spacetime.. By the beginning of the 20th century, Newton's law of universal gravitation had been accepted for more than two hundred years as a valid description of the ...
