High efficiency particulate air (HEPA), originally called high-efficiency particulate absorber but also sometimes called high-efficiency particulate arresting or high-efficiency particulate arrestance, is a type of air filter. Filters meeting the HEPA standard have many applications, including use in clean rooms for IC fabrication, medical facilities, automobiles, aircraft and homes.

Making Mini-Splits Disappear. A lot of homeowners and folks in the building industry in the United States don't want to see their HVAC (a.k.a. heating and air) systems exposed, even if it means high performance, healthy living environment, and total control. There is a magical (OK, maybe that's a bit of a stretch) way to have cake and eat it, too.
