Design and Performance Analysis of Digital Integrator of a Multi-channel Microwave Radiometer Nisha Jain, Archana Sharma ... However, in the case of a multi-channel radiometer, where the number of receivers or analog channels is determined by the number of antenna elements, it is highly impractical to implement an analog receiver ...

performance and licensed user activity. The analysis is based on a discrete Markov chain model of a subset of representative multi-channel OSA MAC classes that incorporates physical layer effects, such as spectrum sensing and fading. The analysis is complemented with extensive simulations. The major observations are

It is a number by which the performance of an amplifier or a radio receiver can be specified, with lower values indicating better performance and contributes to the receiver sensitivity. Noise Figure (NF) is sometimes referred to as Noise Factor (F).
