Life is a characteristic that distinguishes physical entities that have biological processes, such as signaling and self-sustaining processes, from those that do not, either because such functions have ceased (they have died), or because they never had such functions and are classified as inanimate. Various forms of life exist, such as plants, animals, fungi, protists, archaea, and bacteria.

An AngloZionist attack on Syria appears to be inevitable and imminent. There is always a chance of a major pushback from some putative mentally sane, realistic and patriotic generals in the Pentagon, but I am not holding my breath (I asked two of my best informed friends about that, they both told me to forget about it).
