A stock market crash is a sudden dramatic decline of stock prices across a significant cross-section of a stock market, resulting in a significant loss of paper wealth. Crashes are driven by panic as much as by underlying economic factors. They often follow speculative stock market bubbles.. Stock market crashes are social phenomena where external economic events combine with crowd behavior and ...

This is a well-written book presenting a hedging system that uses stocks, warrants and other convertible securities. The hedging system was invented almost 50 years ago when there were very few hedge funds (allegedly the author's hedge fund was one of the first using such a system), so I don't know if this system still works.
