Symbols used in astrology overlap with those used in astronomy because of the historical overlap between the two subjects. Frequently used symbols include signs of the zodiac and for the classical planets. These have their origin in medieval Byzantium, but in their current form are a product of the European Renaissance. Other symbols for astrological aspects are used in various astrological ...

Astrological symbols - Wikipedia

Alchemical symbols, originally devised as part of alchemy, were used to denote some elements and some compounds until the 18th century. Although notation like this was mostly standardized, style and symbol varied between alchemists, so this page lists the most common.
