School of Distance Education Radio and Television Page 5 Module I Organizational structure of a radio station Radio is one of the important inventions of the 20th Century, which has changed the overall meaning of the term mass communication.

**Radio and Television - Official website of Calicut University**

A professional video camera (often called a television camera even though the use has spread beyond television) is a high-end device for creating electronic moving images (as opposed to a movie camera, that earlier recorded the images on film).Originally developed for use in television studios, they are now also used for music videos, direct-to-video movies, corporate and educational videos ...

**Professional video camera - Wikipedia**

In cinematography, a jib is a boom device with a camera on one end, and a counterweight and camera controls on the other. It operates like a see-saw, but with the balance point located close to the counterweight, so that the camera end of the arm can move through an extended arc.A jib permits the camera to be moved vertically, horizontally, or a combination of the two.
