Chemistry is the scientific discipline involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it ...

Inspiring and motivating students from the moment it published, Organic Chemistry has established itself in just one edition as the student's choice of an organic chemistry text. The second edition refines and refocuses Organic Chemistry to produce a text that is even more student-friendly, coherent, and logical in its presentation than before. Like the first, the second edition is built on ...

The banning of plastic bags: Italy and USA A vote of the Italian Parliament at the end of December 2010 rejected the attempt to once again postpone Article 1 of Law 296 (paragraphs 1129 and 1130) of 27 December 2006 from coming into effect, which provided the Italy-wide ban of non biodegradable single-use plastic shopping bags (hereafter referred to as "plastic bags").

Will Banning Plastic Bags Help The Environment? | Science 2.0

Baggie Science This activity introduces students to the idea of chemical reactions by having them mix chemicals inside zip-lock baggies. Although this activity was designed for younger students, it can be used as is or modified for high school students.
