Gresham House believes that there is an opportunity to capture superior risk-adjusted returns in the housing and infrastructure sectors. The sectors are viewed as strategically important for the national, regional and local economies in the UK and generally benefit from substantial asset-backing and/or long-term contractual revenues.

Global In-House Centers (GICs) were first seen in India in the 1990s as an alternative to IT outsourcing arrangements with third-party vendors. The principal driver was labor-cost arbitrage between the United States or Europe and India. The banking, financial services and insurance industries were early adopters.
