The history of geography includes many histories of geography which have differed over time and between different cultural and political groups. In more recent developments, geography has become a distinct academic discipline. 'Geography' derives from the Greek  $\gamma\epsilon\omicron\gamma\alpha\phi\iota\alpha$  – "geographia, a literal translation of which would be "to describe or write about the Earth".

### **History of geography - Wikipedia**

Environmental geography is concerned with the description of the spatial interactions between humans and the natural world. It requires an understanding of the traditional aspects of physical and human geography, as well as the ways that human societies conceptualize the environment.

### **Geography - Wikipedia**

In spite of the fact that a globe model of the earth is the most widely recognized rendition of the world's surface, it would frequently make a great deal of disarray to join the political and physical maps together.
