A New Genetic Map of Living Humans in Interconnected World

A global city, also called world city or sometimes alpha city or world center, is a city which is a primary node in the global economic network. The concept comes from geography and urban studies, and the idea that globalization is created, facilitated, and enacted in strategic geographic locales according to a hierarchy of importance to the operation of the global system of finance and trade.

Global city - Wikipedia

Why choose a .global domain?. The world is ever more interconnected and boundaries are constantly dissolving and changing. Whether you are big brand, a small start-up or you wish to bring people together around an idea, no other domain communicates with such clarity your global aspirations.

Population by region. Six of the Earth's seven continents are permanently inhabited on a large scale. Asia is the most populous continent, with its 4.54 billion inhabitants accounting for 60% of the world population. The world's two most populated countries, China and India, together constitute about 36% of the world's population. Africa is the second most populated continent, with around 1.28 ...
