PPIs are very effective and widely used medications for treating gastroesophageal reflux disease (GORD) and peptic ulcer disease. However, there is evidence of inappropriate prescribing, with a high proportion of patients kept on maximal doses long term. After initial symptom control, the lowest dose and frequency that provides ongoing symptom control should be reached by "stepping down ...

The Royal Australian College of General Practitioners

All newly discovered hernias or symptoms that suggest you might have a hernia should prompt a visit to the doctor. Hernias, even those that ache, if they are not tender and easy to reduce (pushed back into the abdomen), are not necessarily surgical emergencies, but all have the potential to become serious.
